Forecast For Southwest England
Issued by Met Office Exeter
at 1600 on Monday 08 Feb 2021

++ Valid for broadcast between 1800 and 0600

Headline:
A very cold night with widespread frost developing.

This Evening and Tonight:
Remaining largely dry for most this evening and tonight, with an isolated snow shower possible in the east. Often cloudy with some clear intervals allowing for widespread frost and icy stretches to develop. Feeling very cold with a brisk wind. Minimum temperature -2 deg C (28 deg F).

Tuesday:
A frosty start then a largely dry day with some winter sunshine. Wintry showers possible along the southern coasts. Bitterly cold with fresh winds and a risk of coastal gales. Maximum temperature 2 deg C (36 deg F).

Outlook for Wednesday to Friday:
Often cloudy with some sunshine on Wednesday. Cloudier on Thursday and Friday with the risk of rain and snow. Remaining cold with brisk easterly winds, slightly less cold on Friday.
